

Sohan, here is another one I need help on.

Covanta is renewing a PAG03. Was issued as an Appendix J.

The SIC code on the application is shown as 4953, which would be Appendix J.

My question is that I don't think 4953 is correct, but should be 4911. They are processing waste to generate energy.

If this is SIC 4911 then it should be Appendix H.

Thanks

Melinda/Ron:

I understand your concern. Thank you for checking SIC code.

4911: Mostly related to those facilities which are primarily engaged in "Electric Services" like PECO, PPL etc.

4953: Those primarily engaged in the collection and disposal of refuse by processing or destruction.

In this case the facility is using ~~gar~~ garbage for destruction and electricity is generated as a byproduct.

So consider SIC 4953  
and Appendix J.

Thanks. Sohan 5/28/10
